blood circulation
regulation of hormone levels
muscle system process
regulation of body fluid levels
extracellular structure organization
external encapsulating structure organization
extracellular matrix organization
ERK1 and ERK2 cascade
regulation of ERK1 and ERK2 cascade
hormone metabolic process
vascular process in circulatory system
olefinic compound metabolic process
nucleosome organization
nucleosome assembly
mucosal immune response
organ or tissue specific immune response
innate immune response in mucosa
flavonoid metabolic process
protein localization to CENP−A containing chromatin
flavone metabolic process
